GARRISON INDEPENDENT SCHOOL DISTRICT
ACCEPTABLE USE POLICY FOR ELECTRONIC SERVICES FOR STUDENTS

The Garrison Independent School District (GISD) strongly believes in the educational value of electronic services and recognizes the potential to support curriculum and student learning by facilitating resource sharing, innovation, and communication.

Access to the internet allows students to explore thousands of libraries, databases, museums, and other repositories of information. Families should be aware that some material accessible via the internet may contain items that are inappropriate, inaccurate, or potentially offensive. While the purposes of the school are to use electronic resources for constructive educational goals, students may find ways to access other materials. The District believes that the benefits to students from electronic services in the form of information resources and opportunities for collaboration exceed the disadvantages. But ultimately, parents and guardians of minors are responsible for setting and conveying the standards that their children should follow when using media and information resources. Therefore, the District supports and respects each family's right to deny electronic services to their student by submitting an "opt-out" form to the school's principal.

Authorized student use of information resources must be consistent with the educational purposes for which these resources have been provided or allowed. The use of GISD electronic services is to assist in completing educational activities and should be used in a manner that enhances educational experiences and complies with GISD policies. All student users must adhere to the provisions of the Acceptable Use Policy as a condition for continued use of the GISD network. This policy must be followed anytime there is a connection to the District's wired or wireless network via any electronic device. GISD reserves the right to monitor any user's online activities. Users should have no expectation of privacy regarding their use of GISD property, including the network, Internet access, files, text, chat room conversations, and e-mail.

Internet Safety

In compliance with the Children's Internet Protection Act ("CIPA"), the Garrison Independent School District is required to adopt and implement an internet safety policy addressing: (a) access by minors to inappropriate matter on the internet; (b) the safety and security of minors when using electronic mail, chat rooms, and other forms of direct electronic communications; (c) unauthorized access, including so-called "hacking," and other unlawful activities by minors online; (d) unauthorized disclosure, use, and dissemination of personal information regarding minors; and (e) measures restricting minors' access to materials harmful to them. Furthermore, each campus educates students on cyberbullying, appropriate online behavior, and social networking as required by Broadband Data Improvement Act.

1. GISD has implemented filtering and/or blocking software to restrict access to internet sites containing pornography, obscene depictions, or other materials harmful to minors under 18 years of age, to the extent practicable, while using its network. This control also applies to other forms of communication such as e-mail, chat rooms, social networking sites, instant messaging, and the like. However, no software is foolproof, and there is still a risk a user may be exposed to a site or message containing such materials.
2. The student's parent or guardian is responsible for supervising and monitoring all computer usage that occurs outside the GISD network.
3. Students will not reveal personal information, including name, home address, telephone number, photos, and the like on the internet. Students are advised to never access, keep, or send anything that they would not want the general public to see.
4. Students will not meet in person with anyone they have met only online via the internet.
5. The user is personally responsible for his or her actions in accessing and utilizing the school's computer resources.

6. Students must abide by all laws, regulations, the Student Code of Conduct, Acceptable Use Policy, and other related GISD security policies.

Privacy

The Family Educational Rights and Privacy Act (“FERPA”) is a federal law that protects the privacy of student education records. Under FERPA, parents or eligible students have the right to inspect and review the student’s education records maintained by the school. Students and qualified parents can view certain educational records of the student online through GISD’s Parent Student Connect portal. These records are safeguarded through all available means and access will be restricted to parents/guardians and the student through the use of user names and passwords.

Acceptable Actions

GISD students may use the network and electronic services provided by GISD to pursue educational activities. Students will learn how internet resources can provide valuable educational information. Students will be expected to follow accepted rules of network etiquette. These rules include, but are not limited to the following:

- Be courteous and respectful. Do not send or display offensive messages or pictures.
- Use appropriate language in any type of communication. No profane, abusive, or impolite language will be used to communicate nor should materials be accessed that are not in line with the rules of school behavior.
- Keep personal information such as logins, passwords, addresses, and phone numbers confidential.
- Use electronic services for educational purposes only.
- If you encounter materials that violate the rules of appropriate use, disconnect immediately and notify an adult.

Unacceptable Actions

Improper use of electronic services provided by GISD is prohibited. Be prepared to be held accountable for your actions and for the loss of privileges if this Acceptable Use Policy is violated. In addition to the paragraph below labeled “Penalties for Improper Use,” the GISD Student Code of Conduct addresses the consequences for violations. Actions that constitute unacceptable use include, but are not limited to the following:

- Do not use a computer to harm other people or their work.
- Do not damage the computer or the network in any way.
- Do not interfere with the operation of the network by installing software, shareware, or freeware, including the alteration of any controls designed to provide internet safety or alteration of GISD’s default computer image.
- Do not violate copyright laws or participate in any criminal activities punishable by law.
- Do not view, send, or display offensive message or pictures.
- Do not share your password with another person or offer access to any person via your account.
- Do not reveal your personal address or phone numbers or those of other students or colleagues, including the completion of profile data.
- Do not waste limited resources such as disk space or printing capacity.
- Do not distribute advertisements, solicitations, commercial ventures, or political lobbying.
- Do not trespass in another’s folders, work, or files.
- Do not pursue internal or external “hacking”, use anonymous e-mail sites, spread viruses, initiate spam, or attempt to access inappropriate material.

All GISD students are granted access to all electronic services available. If you DO NOT want your student to have access to electronic services, please complete and submit the opt-out form and access will be denied.

Penalties for Improper Use

The use of the network is a privilege, not a right, and may be revoked if abused. Misuse, damage, or vandalism of GISD technology resources may also lead to disciplinary and/or legal action, including suspension, expulsion, or criminal prosecution by governmental authorities.

Disclaimer

GISD makes no guarantee about the quality of services provided and is not responsible for any claims, losses, damages, costs, or other obligations arising from the use of its network. Any charge accrued to the user of GISD's network is borne by the user. Statements by the user on the internet are from the author's individual point of view and do not represent the views of GISD, its employees, or members of the Board of Education.

STATEMENT OF PURPOSE

The Garrison Independent School District (GISD) is committed to providing each student with a quality educational program. This requires that the school environment be free from disruptions that interfere with the educational process. Students are expected to behave in an acceptable manner. Each student must be responsible for helping to create a positive learning environment for all students.

The purpose in providing the GISD Student Handbook and the Student Code of Conduct is to set forth fair and reasonable standards of conduct for all students. This handbook is based upon state and federal laws and local board policies and administrative procedures. It specifies the behaviors that are expected of students in all school or school-related activities and functions. The handbook also describes a broad range of behaviors considered to be student misconduct and the various disciplinary actions that might result should misconduct occur. Students' responsibilities and consequences related to the school are included in the handbook.

Copies of the laws, policies, and procedures that are referenced in the Handbook are available on each campus and in the superintendent's office.

You are encouraged to become familiar with the provisions of the GISD Handbook. If you have any questions, call the principal's office.

Notice Regarding Directory Information and Parent’s Response Regarding Release of Student Information

Certain information about district students is considered directory information and will be released to anyone who follows the procedures for requesting the information; unless the parent or guardian objects to the release of the directory information about the student. If you do not want Garrison ISD to disclose directory information from your child’s education records without your prior written consent, you must notify the district in writing within ten school days of child’s first day of instruction for this school year.

This means that the district must give certain personal information (called “directory information”) about your child to any person who requests it, unless you have told the district in writing not to do so. In addition, you have the right to tell the district that it may, or may not use certain personal information about your child for specific school-sponsored purposes. The district is providing you this form so you can communicate your wishes about these issues. [See Directory Information on page 24 for more information.]

Parents/guardians should also let the district know, within 10 days of receipt of the handbook, if they object to the release of “directory information” on their child(ren).

POLICIES AND PROCEDURES

PREFACE

The student handbook contains information needed by both students and parents during the school year. It is organized alphabetically by topic. Students are addressed as “the student,” “students,” “the child,” or “children.” The term “the student’s parent” refers to the parent, legal guardian, or other person who has agreed to assume school related responsibility for the student.

ADMISSION

A student or the student’s parent who wants to enroll in the district should contact the Superintendent’s office or the Middle School Principal’s office.

ASBESTOS

A student or student’s parents may review the District’s Asbestos Management Plan at the Superintendent’s office. See attached letter.

ASSEMBLIES

A student’s conduct in assemblies must meet the same standard as in the classroom. A student who is tardy or who does not follow District rules of conduct during an assembly will be subject to disciplinary action.

ATTENDANCE

In Texas, children between the ages of 6 and 19 are required to attend school unless exempted by law. Children enrolled in public preschool or kindergarten classes are also subject to these rules. School districts must investigate and report violations of the state compulsory attendance law.

When students are absent from school, their absence will be recorded as “excused” or “unexcused”. “Excused” absences alone or combined with “unexcused” absences will determine whether or not a child has been in attendance for 90% of the school days in which a class is offered. **Students who are not in attendance 90% of school days shall be denied credit for the class. If denied credit, students must complete a plan determined by the district in order to regain credit.**

Students at Garrison ISD may regain credit by completing the required plan which may include the following:

- Complete required assignments and any additional assignments as specified by the plan
- Satisfy time missed from school through Absence Recovery Days each six weeks or through summer school
- Maintain attendance requirements set by the Attendance Committee for the rest of the semester
- Complete any other requirements set forth in a plan designed by the attendance committee.

Students with excessive absences must meet with the Campus Attendance Committee where the decision to grant or deny credit will be made. The Attendance Committee will investigate the student absences to determine if there were extenuating circumstances beyond the control of the parent and student when making this decision. The Attendance Committee will determine the acceptability and authenticity of documented reasons for the student’s absences. The committee shall also consider whether or not the student has completed missed assignments, mastered essential knowledge and skills, and maintained passing grades in the course or subject when making this decision. Petitions for credit may be filed at any time after the student has received notice from the appropriate administrative office, but no later than 30 days after the last day of the semester for which credit is lost because of absences.

Students with “unexcused” absences may be determined to be truant. Truancy may result in assessment of penalties by a court of law against the parent and the student. Students are considered truant if they are:

- Absent from school without excuse for ten or more days or parts of days in a six month period during the school year

A complaint may be filed against the student in court for failing to attend school. A complaint may be filed against the parent for failure to enforce compulsory attendance.

A person required to attend school may be excused for temporary absence resulting from any unusual cause acceptable to the Superintendent or the principal of the school in which the student is enrolled. Such causes may include, but are not limited to:

- personal sickness
- family death or emergency
- juvenile court proceeding
- board approved extracurricular activity
- approved college visitation

When a student's absence for personal illness exceeds 4 successive days, the student shall provide a statement from a physician or health clinic verifying the illness or other condition. The Attendance Committee may, if a student has established a questionable pattern of absences, also require a physician's or clinic's statement of illness after a single day's absence as a condition of classifying the absence as "excused" or "unexcused". **After ten absences within the school year, any additional absences will be considered unexcused unless official documentation is provided. For example:**

- **Statement from a physician or health clinic verifying the illness or other condition requiring the student's absence**
- **Documented juvenile court proceeding**
- **Other certified excuses as outlined in Board Policy FEA (Legal)**

After ten absences within a school year, a written note from a parent/guardian will not be accepted to declare an absence excused.

All absences not school related are considered "unexcused" until a student brings a note signed by the parent that gives the date of the absence and describes the reason for the absence. A note from the parent does not guarantee that the absence will be "excused". If a student fails to bring a note within two school days, the unexcused absence(s) will remain in effect. **Absences such as vacations and trips (except those approved in advance by the principal in accordance with Board Policy), shall be considered unexcused.**

Medical and dental appointments will be excused absences if the student brings a note from the doctor verifying the appointment and if the appropriate administrative office has verified it. If a student attends an appointment with a health care professional and returns to school in the same day with a doctor's excuse, the student will not be counted absent for the day. Absences for the following reasons will be considered days of attendance if all work is completed satisfactorily:

- a. Religious Holy Days
- b. Required Court Appearance
- c. Activities related to U.S. Citizenship
- d. Serving as an election clerk
- e. Visiting an institute of higher learning

Leaving Campus

G.M.S. has a closed campus during the school day. A student who must leave school during the day must check out through the principal's office and provide a written and/or verbal response from the parent. A student who becomes ill during the day should, with the teacher's written permission, report to the school nurse. The nurse will decide whether or not the student should be sent home and will notify the student's parent.

Students must remain on campus during lunch.

A student absent from school or from any class, without permission, will be considered truant and subject to disciplinary action.

Extracurricular Activities

Students must attend school on the day of a scheduled extracurricular or co-curricular event. If a student is absent for any reason other than a school related activity, doctors appointment, or documented court appearance, the student will not be allowed to participate on the day or evening. A student must be in school prior to 10:00 a.m. in order to be counted present. Garrison Middle School offers the following extra-curricular activities: Athletics,

Band, FCA, FFA, Cheerleading, and UIL. A student will be permitted to participate in extracurricular activities subject to the following restrictions:

1. During the first grading period, a student is eligible if he/she was promoted at the end of the previous year.
2. During the other grading periods, a student who receives an average grade below 70 in any course or subject, or a student with disabilities who fails to meet the standards in the Individual Education Plan (IEP), may not participate in extracurricular activities for at least three school weeks. The suspension from extracurricular activities goes into effect seven days AFTER the last day of the grading period. A student regains eligibility at the end of the three-week grading period in which a passing grade (70 or above) is earned in all subjects, but may not participate until 7 days following the end of the three-week period.
3. A student is allowed up to 10 activity-related absences from a class during the school year, and up to 5 absences for post-district competition. A student who has extinguished his/her days may apply for a waiver provided they meet the following criteria:
 1. Passed all parts of STAAR in the prior year.
 2. Is currently maintaining an 84 average or better in all classes.
 3. Cannot have more than 3 office referrals for discipline or tardies.

A student must apply for this waiver each time their days have been used.

Tardy Policy

Any student who is not in the classroom at the time that the tardy bell rings will be considered late for class and thus counted tardy. Tardies will be considered unexcused unless there is a note provided from the office or from other school personnel.

The student will be allowed two unexcused tardies per class per six weeks period. Upon a student receiving a third tardy in a class, the teacher will be responsible for sending that student to the principal's office with a discipline referral notice. Upon receiving the discipline notice, the following action will be taken:

- Third tardy – Corporal punishment or one day of A.S.D.
- Fourth tardy – Corporal punishment or two days of A.S.D.
- Fifth tardy or more – parent conference plus I.S.S.

CAFETERIA SERVICES

The District participates in the National School Meal Program and offers free and reduced-price meals based on a student's financial need. Information can be obtained from Lisa McKnight at the school cafeteria.

The District follows the federal and state guidelines regarding foods of minimal nutritional value being served or sold on school premises during the school day.

CHEATING/PLAGIARISM/ACADEMIC DISHONESTY

Plagiarism is the use of another person's original ideas or writing as one's own without giving credit to the true author. Plagiarism will be considered cheating, and the student will be subject to academic disciplinary action that may include loss of credit for the work in question. Teachers who have reason to believe a student has engaged in cheating or other academic dishonesty will determine the academic penalty to be assessed. Students found to have engaged in academic dishonesty will be subject to disciplinary penalties as well as academic penalties.

CHECK ACCEPTANCE POLICY

Our school district has established the following policy for accepting checks and collecting bad checks. For a check to be an acceptable form of payment it must include your current, full and accurate name, address, and telephone number. In the event your check is returned for non-payment, the face value may be recovered electronically along with a state allowed fee by means of electronic payment. In the event your check is returned for non-payment, checks may no longer be an acceptable form of payment for the remainder of the school year. Alternative forms of payment may be used instead of a check payment (cash, credit card, online payment).

CLUBS, ATHLETICS, AND ORGANIZATIONS

Student clubs and performing groups, such as the band, choir, and drill and athletic teams may establish rules of conduct and consequences for misbehavior that are stricter than those for students in general. Students and parents must sign an acknowledgment of stricter standards of behavior as a condition of participation in clubs or performing groups.

BASIC PARTICIPATION REQUIREMENTS: Students participating in team sports; football, basketball, baseball, and softball must be enrolled in the athletic period and participate in the offseason program the semester prior to that sports beginning and throughout the season of their sport. All athletes are encouraged to be in the athletic period year round. Extenuating circumstances may be given reprieve from this rule if approved by the athletic director.

COMMUNICABLE DISEASES/CONDITIONS

Parents of a student with a communicable or contagious disease are asked to telephone the school nurse/principal so that other students who have been exposed to the disease can be alerted. A student who has certain diseases is not allowed to come to school while the disease is contagious. These diseases include Chickenpox, Common Cold with fever, Diphtheria, Fever (100.4 or greater), Gastroenteritis (Viral), Giardiasis, Head Lice (Pediculosis), Hepatitis (Viral, Type A), Impetigo, Influenza, Measles (Rubeola), Meningitis (Bacterial), Mumps, Pink Eye (Conjunctivitis), Polio, Ringworm of the scalp, Rubella (German Measles), Salmonellosis, Scabies, Shigellosis, Streptococcal Sore Throat and Scarlet Fever, tuberculosis (Pulmonary) and Whooping Cough (Pertussis).

State law requires the District to provide the following information on Bacterial Meningitis:

WHAT IS MENINGITIS? Meningitis is an inflammation of the covering of the brain and spinal cord. It can be caused by viruses, parasites, fungi, and bacteria. Viral meningitis is most common and the least serious. Bacterial meningitis is the most common form of serious bacterial infection with the potential for serious, long-term complications. It is an uncommon disease, but requires urgent treatment with antibiotics to prevent permanent damage or death.

WHAT ARE THE SYMPTOMS? Someone with meningitis will become very ill. The illness may develop over one or two days, but it can also rapidly progress in a matter of hours. Not everyone with meningitis will have the same symptoms. Children (over 1 year old) and adults with meningitis may have a severe headache, high temperature, vomiting, sensitivity to bright lights, neck stiffness or joint pains, and drowsiness or confusion. In both children and adults, there may be a rash of tiny, red-purple spots. These can occur anywhere on the body. The diagnosis of bacterial meningitis is based on a combination of symptoms and laboratory results.

HOW SERIOUS IS BACTERIAL MENINGITIS? If it is diagnosed early and treated promptly, the majority of people make a complete recovery. In some cases it can be fatal or a person may be left with a permanent disability.

HOW IS BACTERIAL MENINGITIS SPREAD? Fortunately, none of the bacteria that cause meningitis are as contagious as diseases like the common cold or the flu, and they are not spread by casual contact or by simply breathing the air where a person with meningitis has been. The germs live naturally in the back of our noses and throats, but they do not live for long outside the body. They are spread when people exchange saliva (such as by kissing, sharing drinking containers, utensils, or cigarettes). The germ does not cause meningitis in most people. Instead, most people become carriers of the germ for days, weeks, or even months. The bacteria rarely overcome the body's immune system and cause meningitis or another serious illness.

HOW CAN BACTERIAL MENINGITIS BE PREVENTED? Do not share food, drinks, utensils, toothbrushes, or cigarettes. Limit the number of persons you kiss. While there are vaccines for some other strains of bacterial meningitis, they are used only in special circumstances. These include when there is a disease outbreak in a community or for people traveling to a country where there is a high risk of getting the disease. Also, a vaccine is recommended by some groups for college students, particularly freshmen living in dorms or residence halls. The vaccine is safe and effective (85-90 percent). It can cause mild side effects, such as redness and pain at the injection site lasting up to two days. Immunity develops within seven to ten days after the vaccine is given and lasts for up to five years.

WHAT SHOULD YOU DO IF YOU THINK YOU OR A FRIEND MIGHT HAVE BACTERIAL MENINGITIS? You should seek prompt medical attention.

WHERE CAN YOU GET MORE INFORMATION? Your school nurse, family doctor, and the staff at your local or regional health department office are excellent sources for information on all communicable diseases. You may also call your local health department or Regional Texas Department of Health office to ask about meningococcal vaccine.

COMPLAINTS BY STUDENTS/PARENTS

Complaints by students or parents about instructional materials, loss of credit on the basis of attendance, removal to disciplinary alternative education programs, expulsion, or prior review of non-school materials intended for distribution to students are handled through procedures specific to policies in those particular areas. To review relevant policies or obtain further information, see the principal. A student and/or parent with a complaint regarding possible discrimination in any school program on the basis of sex should contact the campus Principal. For a complaint regarding sexual harassment or abuse, see the Student Code of Conduct. A complaint or concern regarding the placement of a student with disabilities who is not eligible for special education or about the District's programs and services available to the student should be brought to the Superintendent. On all other matters, a student or parent who has a complaint should bring it to the appropriate teacher. If the outcome is not satisfactory, the following steps should be taken:

Level one A student or parent who has a complaint shall request a conference with the principal within fifteen days of the time the student or parent knew, or should have known, of the event or series of events causing the complaint. The principal shall schedule and hold a conference with the student or parent within ten days of the request.

Level two If the outcome of the conference with the principal is not to the student's or parent's satisfaction, the student or parent may request, within ten days, a conference with the Superintendent or designee, who shall schedule and hold a conference. Prior to or at the time of the conference, the student or parent shall submit a written complaint that includes a statement of the complaint, any evidence in its support, the solution sought, the student's or parent's signature, and the date of the conference with the principal.

Level three If the outcome of the conference with the Superintendent or designee is not to the student's or parent's satisfaction, the student or parent may submit to the Superintendent a written request to place the matter on the agenda of the next regular Board meeting.

The Superintendent shall inform the student or parent of the date, time, and place of the meeting. The presiding officer shall establish a reasonable time limit for complaint presentations. The Board shall hear the complaint and take whatever action it deems appropriate. The lack of official action by the Board shall uphold the administrative decision at Level Two.

If the complaint involves concerns or charges regarding an employee, it shall be heard by the Board in closed meeting unless the employee to whom the complaint pertains requests that it be public.

COMPUTER ACCESS – ACCEPTABLE USE AND CODE OF CONDUCT

Students are given access to the District's electronic communications system. Through this system, students will be able to communicate with other schools, colleges, organizations, and people around the world through the Internet and other electronic information systems/networks. Students will have access to hundreds of databases, libraries, and computer services all over the world.

With this educational opportunity comes responsibility. It is important that students read the District policy, administrative regulations, and agreement form and ask questions if they need help in understanding them. Inappropriate system use will result in the loss of the privilege to use this educational tool.

Please note that the Internet is a network of many types of communication and information networks. It is possible that students may run across areas of adult content and some material may be objectionable. The District will take reasonable steps to restrict access to such material by using a filtering software system, however it is not

possible to absolutely prevent such access. It will be the student's responsibility to follow the rules for appropriate use.

Grade 6-12 students will be assigned an individual account, and they will be responsible for not sharing the password for the account with others.

The account is to be used primarily for identified educational purposes, but some limited personal use is permitted.

Students will be held responsible at all times for the proper use of their account, and the District may suspend or revoke their access if they violate the rules. Students may not receive or transmit e-mail from a school computer.

INAPPROPRIATE USES

- Using the system for any illegal purpose
- Student participation in chat rooms.
- Borrowing someone's account without permission
- Posting personal information about yourself or others (such as addresses and phone numbers).
- Downloading or using copyrighted information without permission from the copyright holder.
- Posting messages or accessing materials that are abusive, obscene, sexually oriented, threatening, harassing, or illegal.
- Cyber-bullying others through the computer. This includes threatening or harassing messages or postings.
- Wasting school resources through the improper use of the computer system.
- Gaining unauthorized access to restricted information or resources

CONSEQUENCES FOR INAPPROPRIATE USE

- Suspension of access to the system;
- Revocation of the computer system account; or
- Other disciplinary or legal action, in accordance with the Student Code of Conduct and applicable laws.

CONFERENCES

Teachers may request a conference with students and parents 1) if the student is not maintaining passing grades or achieving the expected level of performance, 2) if the student presents any other problem to the teacher, or 3) in any other case the teacher considers necessary.

A student or parent who wants information or wants to raise a question or concern is encouraged to confer with the appropriate teacher, counselor, or principal. A parent who wishes to confer with a teacher may call the office for an appointment during the teacher's conference period or at another mutually convenient time.

COUNSELING

Academic Counseling

Students are encouraged to talk with a school counselor, teachers, and principals in order to learn about the curriculum, course offerings, graduation requirements, and differences between graduation programs. All students in grades 9-12 and their parents will be notified annually about the recommended courses for students preparing to attend college. In addition, students are expected to complete a four-year course of study and revise it each year to meet changing needs. Students who are interested in attending a college, university, or training school or pursuing some other advanced education, should work closely with their counselor so that they take the high school courses to best prepare them for further work. The counselor can also provide information about entrance examinations required by many colleges and universities, as well as information about financial aid and housing.

Personal Counseling

The school counselor is available to assist students with a wide range of personal concerns, including areas such as social, family, emotional, academic, or chemical dependency needs. The counselor may also make available information about community resources to address personal concerns. Students who wish to meet with the counselor should contact the appropriate Counselor or the Principal.

DISRUPTION BY STUDENTS OR OTHERS

Disruption of classes or any school activities by a student or others is prohibited and is subject to disciplinary action and/or referral for criminal prosecution.

The District may pursue a criminal charge against and/or discipline any person inciting, promoting, or participating in a protest demonstration, riot, sit-in, walk-out, blocking of entrances, threatening force, etc.

Written materials, handbills, photographs, pictures, petitions, films, tapes, or other visual or auditory materials **may not be sold, circulated, or distributed on any school campus** by a student or a non-student without the approval of the principal and in accordance with campus regulations.

All materials intended for distribution to students that are not under the District's editorial control must be submitted to the principal for review and approval. If the material is not approved within 24 hours of the time it was submitted, it must be considered disapproved. Disapprovals may be appealed by submitting the disapproved material to the Superintendent, material not approved by the Superintendent within three days is considered disapproved.

DROP-OFF PROCEDURES

A new sidewalk has been made at the drop off point. Please pull up as far as you can next to the new sidewalk. Do NOT let students out before you are pulled up to the sidewalk. This is a safety issue.

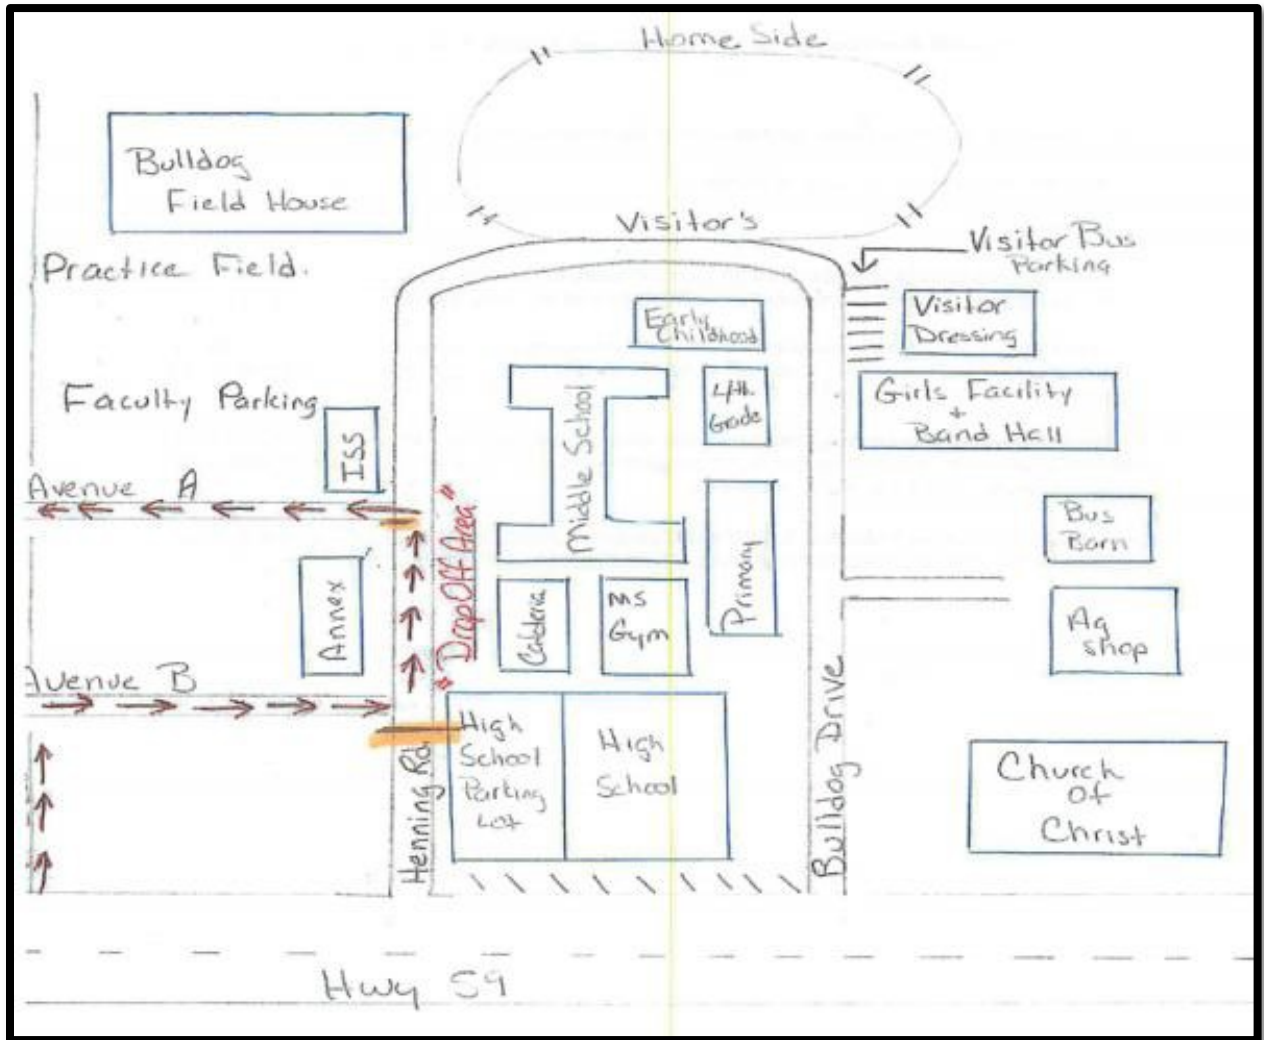

Teachers will be on duty to supervise the drop off point; if needed, they will be able to open car doors and help students out. Please make sure you child has all their things together so they can exit the car quickly and safely.

All parents are asked to stay between the barricades indicated on the attached map. No child should be dropped off or picked up in any area that is not designated as a drop off area. A student should never have to cross an unprotected street or parking lot.

These rules are made to be followed. If Office Barton sees a parent who is not following the rules, they will be ticketed for violation of avoiding an official barricade, set in place for the safety of the public.

- 7th Grade Pre-AP Math
- 8th Grade Algebra I

HOMEBOUND SERVICES

A homebound setting is for providing special education instruction to eligible students who are served at home or hospital bedside. Students served on a homebound or hospital bedside basis are expected to be confined for a minimum of four (4) consecutive weeks as documented by a physician licensed to practice in the United States. Homebound or hospital bedside instruction may, as provided by local District policy, also be provided to chronically ill students who are expected to be confined for any period of time totaling at least four (4) weeks throughout the school year as documented by a physician licensed to practice in the United States. Home instruction may be provided as an option for students with handicaps as a result of disciplinary action. Home instruction may also be used for pre-kindergarten students whose development levels are such that they are not capable of participating in special education classes.

IMMUNIZATION

A student must be fully immunized against certain diseases or must present a certificate or statement that, for medical or religious reasons, the student should not be immunized. The immunizations required are: hepatitis A, hepatitis B, diphtheria, tetanus, poliomyelitis, measles (rubeola), mumps, rubella, and haemophilus influenza type B, and varicella (chicken pox); the school nurse can provide information on age-appropriate doses or on an acceptable physician-validated history of illness required by the Texas Department of Health. Proof of immunization may be personal records from a licensed physician or public health clinic with a signature or rubber-stamp validation.

A student must be fully immunized against certain diseases or must present a certificate or statement that, for medical reasons or reasons of conscience, including a religious belief, the student will not be immunized. For exemptions based on reasons of conscience, only official forms issued by the Texas Department of State Health Services (DSHS), Immunization Branch, can be honored by the district. This form may be obtained by writing the DSHS Immunization Branch (MC 1946), P.O. Box 149347, Austin, Texas 78714-9347; or online at

<https://corequest.dshs.texas.gov/>. The form must be notarized and submitted to the principal or school nurse within 90 days of notarization. If the parent is seeking an exemption for more than one student in the family, a separate form must be provided for each student.

If a student's religious beliefs conflict with the requirement that the student be immunized, the student must present a statement by the student (or by the parent if the student is a minor) that states that immunization conflicts with the beliefs and practices of a recognized church or religious denomination of which the student is an adherent or member. This statement must be renewed yearly. Failure to provide proof of current immunizations may result in a student being denied enrollment or being sent home until immunizations are updated.

INSURANCE

At the beginning of the school year, the District will make available to students and parents a low-cost student accident insurance program. Parents are responsible for paying premiums (if coverage is desired) and for submitting claims through the Superintendent's office. The District shall not be responsible for costs of treating injuries or assume liability for any other costs associated with an injury. Before participating in a school-sponsored trip outside the District or in school-sponsored athletics, students and parents must have purchased the student accident insurance or shown proof of insurance. Failure to purchase insurance does not warrant exclusion from extracurricular activities.

LIMITED ENGLISH PROFICIENT STUDENTS

A student with limited English proficiency (LEP) is entitled to receive specialized services from the district. To determine whether the student qualifies for services, a Language Proficiency Assessment Committee (LPAC) will be formed, which will consist of both district personnel and at least one parent representative. The student's parent must consent to any services recommended by the LPAC for a LEP student.

In order to determine a student's level of proficiency in English, the LPAC will use information from a variety of assessments. If the student qualifies for services and once a level of proficiency has been established, the LPAC will then designate instructional accommodations or additional special programs the student will require to eventually become proficient at grade level work in English. Ongoing assessments will be conducted to determine a student's continued eligibility for the program.

The LPAC will also determine whether certain accommodations are necessary for any state-mandated assessments. The STAAR-L, mentioned in STANDARDIZED TESTING below, may be administered to LEP students who qualify for services. If a student is considered LEP and receives special education services because of a qualifying disability, the student's ARD committee will make these decisions.

LOCKERS

Lockers are school property and remain under the control and jurisdiction of the school even when assigned to an individual student. The school reserves the right to inspect all lockers. Each student has full responsibility for the security of the locker and is responsible for making certain it is locked and that the combination is not available to others. Searches of lockers may be conducted at any time if there is reasonable cause to do so whether or not a student is present. Students are assigned lockers at the beginning of the school year and are expected to use the locker assigned to them.

MEDICINE AT SCHOOL

A student who must take prescription or non-prescription medicine during the school day must bring a written request from his or her parent and the medicine, in its properly labeled container, to the school nurse. The school nurse will either give the medicine at the proper time or give the student permission to take the medicine as directed.

PARENTAL INVOLVEMENT AND RESPONSIBILITIES

Education succeeds best when there is a strong partnership between home and school, a partnership that thrives on communication and interaction, and includes parents, teachers, administrators, and the Board of Trustees. Every parent is urged to:

- Encourage his or her child to put high priority on education and to commit to making the most of the educational opportunities the school provides.

- Review the information in the student handbook (including the attached Student Code of Conduct) with his or her child and sign and return the acknowledgment form(s). A parent with questions is encouraged to contact Garrison ISD.
- Stay informed on school activities and with the academic programs, including special programs. Discuss with the counselor or principal any questions, such as concerns about placement, assignment, or early graduation, and the options available to the child's academic progress and contact teachers as needed.
- Garrison Post is published weekly and contains school information. Parent/student meetings provide good opportunities for learning more about the school.
- Review the child's student records when needed. A parent may review (1) attendance records, (2) test scores, (3) grades, (4) disciplinary records, (5) counseling records, (6) psychological records, (7) applications for admission, (8) health and immunization information, (9) other medical records, (10) teacher and counselor evaluations, (11) reports of behavioral patterns and (12) state assessment instruments that have been administered to his or her child [see also student records on page 14].
- Grant or deny any written request from the District to make a videotape or voice recording of the child unless the videotape or voice recording (1) is to be used for school safety, (2) relates to classroom instruction or a co-curricular or extracurricular activity, or (3) relates to media coverage of the school as permitted by law.
- Temporarily remove the child from the classroom, if an instructional activity in which the child is scheduled to participate conflicts with the parent's religious or moral beliefs. The removal cannot be for the purpose of avoiding a test and may not extend for an entire semester. Further, the child must satisfy grade-level and graduation requirements as determined by the school and by the Texas Education Agency (TEA).
- Offer to serve as a parent representative on the District-level or campus-level planning committees formulating educational goals and plans to improve student achievement.
- Attend board meetings to learn more about District operations, including the procedure for addressing the Board when appropriate.
- Become a school volunteer. For further information contact the campus principal.
- Participate in campus parent organizations. The activities are varied, ranging from band boosters to the campus committee formulating campus performance objectives fostering improved educational opportunities for all students. Parents may wish to visit the school library to review the most recent planning report approved by the Board for addressing student performance issues in the District. In addition, after receipt from TEA, the school will provide all parents a copy of the "school report card" containing a comparison of the school's performance in relation to the District, the state, and a comparable group of schools. For further information contact the campus principal.
- Monitor their children's progress and contact teachers as needed. Conferences may be arranged by contacting the campus principal's office at 347-7020. Conferences are to be held during the teacher's conference period.

PARTIES AND SOCIAL EVENTS

The student handbook and code of conduct will be observed at school social events held outside the regular school day. Guests are expected to observe the same rules as students attending the event, and the person inviting the guest will share responsibility for the conduct of the guest. A student attending a party or social event may be asked to sign out when leaving before the end of the party; anyone leaving before the official end of the party will not be readmitted.

PEST CONTROL INFORMATION

The District periodically applies pesticides inside buildings. Information regarding the application of pesticides is available from the Superintendent's office.

PHYSICAL FITNESS

Students in middle or junior high school will engage in 30 minutes of moderate or vigorous physical activity per day for at least four semesters OR at least 225 minutes of moderate or vigorous physical activity within each two-week period for at least four semesters.

For additional information on the district's requirements and programs regarding elementary, middle, and junior high school student physical activity requirements, please see the principal.

PHYSICAL FITNESS ASSESSMENT

Annually, the district will conduct a physical fitness assessment of students in grades 3-12. At the end of the school year, a parent may submit a written request to Travis Weeks to obtain the results of his or her child's physical fitness assessment conducted during the school year.

PLEDGES/MOMENT OF SILENCE

Texas law requires students to recite the Pledge of Allegiance to the United States flag and Pledge of Allegiance to the Texas flag each school day. Parents may submit a written request to the principal to excuse their child from reciting a pledge.

A moment of silence will follow recitation of the pledges. The student may choose to reflect, pray, meditate, or engage in any other silent activity so long as the silent activity does not interfere with or distract others. State law does not allow your child to be excused from participation in the required moment of silence or silent activity that follows.

POSTERS

Signs and posters that a student wishes to display must first be approved by the campus principal. Posters displayed without authorization will be removed. Any student who posts printed material without prior approval will be subject to disciplinary action.

RELEASE OF STUDENTS FROM SCHOOL

A student will not be released from school at times other than regular dismissal hours except with the principal's permission, written parental consent and/or verbal parental consent. The principal will determine that permission has been granted before allowing the student to leave. Students must remain on campus during lunch.

RETENTION AND PROMOTION POLICY

In grades 6-8, promotion to the next grade level shall be based on an overall average of 70 on a scale of 100 based on course-level, grade-level standards (essential knowledge and skills) for all subject areas and a grade of 70 or above in three of the following areas: language arts, mathematics, science, and social studies.

Students who do not meet the requirements for promotion will not be allowed to make up more than two classes from any accredited summer school program.

Garrison ISD is not obligated to provide summer school programs for students who do not meet the requirements for promotion.

In addition, at certain grade levels a student – with limited exceptions – will be required to pass the State of Texas Assessments of Academic Readiness (STAAR), if the student is enrolled in a public Texas school on any day between January 1 and the date of the first administration of the STAAR.

- In order to be promoted to grade 6, students enrolled in grade 5 must perform satisfactorily on the mathematics and reading sections of the grade 5 assessments in English or Spanish.
- In order to be promoted to grade 9, students enrolled in grade 8 must perform satisfactorily on the mathematics and reading sections of the grade 8 assessments in English.

If a student in grade 5 or 8 is enrolled in a course that earns high school credit and for which an end-of-course (EOC) assessment will be administered or in a course intended for students above the student's current grade level in which the student will be administered a state mandated assessment, the student will not be subject to the promotion requirements described above for the relevant grade 5 or 8 assessment. However, the student's score on the EOC assessment will be used in determining whether the student meets the minimum cumulative score required for graduation.

If a student is enrolled in a class or course intended for students above his or her current grade level in which the student will be administered a state mandated assessment, the student will only be required to take an applicable state mandated assessment for the course in which he or she is enrolled.

SAFETY

Student safety on campus or at school-related events is a high priority of the District. With safety in mind, the District has implemented policies and committed resources. However, the District can address only part of the challenge; the essential remaining part is the cooperation of the students, including:

- Avoiding conduct that is likely to put the student or other students at risk.
- Following the code of conduct and any additional rules for behavior and safety set by the principal or teachers.
- Remaining alert to and promptly reporting safety hazards, such as intruders on campus.
- Knowing emergency evacuation routes and signals.
- Following immediately the instructions of teachers, bus drivers, and other District employees who are seeing to the welfare of students.

Parents can assist by keeping emergency care information up to date (name of doctor, emergency phone numbers, allergies to medications, etc.). Please contact the school nurse to update any information. Having current information will be of critical importance should an accident or injury occur that requires medical attention.

SEARCHES BY TRAINED DOGS

Periodic searches of cars, lockers, and buildings will be conducted on campus by trained alcohol, drug, and/or gunpowder sniffing dogs. The searches will be conducted in compliance with the laws and statutes governing student searches and seizures.

SPECIAL PROGRAMS

Aiding Students Who Have Learning Difficulties or Who Need Special Education or Section 504 Services

For those students who are having difficulty in the regular classroom, all school districts and open enrollment charter schools must consider tutorial, compensatory, and other academic or behavior support services that are available to all students, including a process based on Response to Intervention (RtI). The implementation of RtI has the potential to have a positive impact on the ability of districts and charter schools to meet the needs of all struggling students.

If a student is experiencing learning difficulties, his or her parent may contact the individual(s) listed below to learn about the school's overall general education referral or screening system for support services. This system links students to a variety of support options, including making a referral for a special education evaluation or for a Section 504 evaluation to determine if the student needs specific aids, accommodations, or services. A parent may request an evaluation for special education or Section 504 services at any time.

Special Education Referrals:

If a parent makes a written request for an initial evaluation for special education services to the director of special education services or an administrative employee of the school district or open enrollment charter school, the district or charter school must respond no later than 15 school days after receiving the request. At that time, the district or charter school must give the parent a prior written notice of whether it agrees to or refuses to evaluate the student, along with a copy of the *Notice of Procedural Safeguards*. If the school district or charter school agrees to evaluate the student, it must also give the parent the opportunity to give written consent for the evaluation.

Please note that a request for a special education evaluation may be made verbally and does not need to be in writing. Districts and charter schools must still comply with all federal prior written notice and procedural safeguard requirements and the requirements for identifying, locating, and evaluating children who are suspected of being a child with a disability and in need of special education. However, a verbal request does not require the district or charter school to respond within the 15-school-day timeline.

If the district or charter school decides to evaluate the student, it must complete the student's initial evaluation and evaluation report no later than 45 school days from the day it receives a parent's written consent to evaluate the student. However, if the student is absent from school during the evaluation period for three or more school days, the evaluation period will be extended by the number of school days equal to the number of school days that the student is absent.

There is an exception to the 45-school-day timeline. If a district or charter school receives a parent's consent for the initial evaluation at least 35 but less than 45 school days before the last instructional day of the school year, it must complete the written report and provide a copy of the report to the parent by June 30

of that year. However, if the student is absent from school for three or more days during the evaluation period, the June 30th due date no longer applies. Instead, the general timeline of 45 school days plus extensions for absences of three or more days will apply.

Upon completing the evaluation, the district or charter school must give the parent a copy of the evaluation report at no cost.

Additional information regarding special education is available from the district or charter school in a companion document titled *Parent's Guide to the Admission, Review, and Dismissal Process*.

Section 504 Referrals:

Each school district or charter school must have standards and procedures in place for the evaluation and placement of students in the district's or charter school's Section 504 program. Districts and charter schools must also implement a system of procedural safeguards that includes notice, an opportunity for a parent or guardian to examine relevant records, an impartial hearing with an opportunity for participation by the parent or guardian and representation by counsel, and a review procedure.

The District provides special programs for gifted and talented students, bilingual students, dyslexic students, and for those with disabilities. A student or parent with questions about these programs should contact the counselor; the coordinator of each program can answer questions about eligibility requirements and programs and services offered in the District or by other organizations.

Options and requirements for providing assistance to students who have learning difficulties or who need or may need special education: If a child is experiencing learning difficulties, the parent may contact the person listed below to learn about the district's overall general education referral or screening system for support services. This system links students to a variety of support options, including referral for a special education evaluation. Students having difficulty in the regular classroom should be considered for tutorial, compensatory, and other academic or behavioral support services that are available to all students including a process based on Response to Intervention. The implementation of Response to Intervention has the potential to have a positive impact on the ability of school districts to meet the needs of all struggling students.

At any time, a parent is entitled to request an evaluation for special education services. Within a reasonable amount of time, the district must decide if the evaluation is needed. If evaluation is needed the parent will be notified and asked to provide consent for the evaluation. The district must complete the evaluation and the report within 60 calendar days of the date that the district receives the written consent. The district must give a copy of the report to the parent.

If the district determines that the evaluation is not needed, the district will provide the parent with a written notice that explains why the child will not be evaluated. This written notice will include a statement that informs the parent of their rights if they disagree with the district. Additionally, the notice must inform the parent how to obtain a copy of the *Notice of Procedural Safeguards – Right of Parents of Students with Disabilities*.

Contact Lee Ann Robertson with the Nacogdoches CO-OP regarding options for a child experiencing learning difficulties or a referral for evaluation for special education services.

Students with Physical or Mental Impairments under Section 504

A child determined to have a physical or mental impairment that substantially limits a major life activity, as defined by law, and who does not otherwise qualify for special education services, may qualify for protections under Section 504 of the Rehabilitation Act. Section 504 is a federal law designed to prohibit discrimination against individuals with disabilities. When an evaluation is requested, a committee will be formed to determine if the child is in need of services and supports under Section 504 to receive a free appropriate public education (FAPE), as this is defined in federal law. The designated person to contact regarding a referral for evaluation applicable to Section 504 is Julia Konderla at (936)347-7020. [Also see policy FB]

STEROIDS

State law prohibits students from possessing, dispensing, delivering, or administering an anabolic steroid. Anabolic steroids are for medical use only, and only a physician can prescribe use.

Body building, muscle enhancement, or the increase of muscle bulk or strength through the use of anabolic steroid or human growth hormone by a healthy student is not a valid medical use and is a criminal offense.

Students participating in UIL athletic competition may be subject to random steroid testing.

STUDENT RECORDS

A student's school records are confidential and are protected from unauthorized inspection or use. A cumulative record is maintained for each student from the time the student enters the District until the student withdraws or graduates. This record moves with the student from school to school.

By law, both parents, whether married, separated, or divorced have access to the records of a student who is under 18 or a dependent for tax purposes. A parent whose rights have been legally terminated will be denied access to the record of the school is given a copy of the court order terminating these rights.

The principal is custodian of all records for currently enrolled students at the assigned school. The Superintendent is the custodian of all records for students who have withdrawn or graduated. Records may be reviewed during regular school hours upon completion of the written request form. The records custodian or designee will respond to reasonable requests for explanation and interpretation of the records.

Parents of a minor or of a student who is dependent for tax purposes, the student (if 18 or older), and school officials with legitimate educational interests are the only persons who have general access to a student's records. "School officials with legitimate educational interests" include any employees, agents, or Trustees of the District, of cooperatives of which the District is a member, or facilities with which the District contracts for the placement of students with disabilities, as well as their attorneys and consultants, who are:

1. Working with the student;
2. Considering disciplinary or academic actions, the student's case, an Individual Education Plan (IEP) for a student with disabilities under IDEA or an individually designed program for a student with disabilities under Section 504;
3. Compiling statistical data; or
4. Investigating or evaluating programs.

Certain officials from various governmental agencies may have limited access to the records. The District forwards a student's records on request and without prior parental consent to a school in which a student seeks or intends to enroll. Parental consent is required to release the records to anyone else. When the student reaches 18 years of age, only the student has the right to consent to release of records.

The parent's or student's right of access to, and copies of, student records does not extend to all records. Materials that are not considered educational records, such as teachers' personal notes on a student that are shared only with a substitute teacher, records pertaining to former students after they are no longer students in the District, and records maintained by school law enforcement officials for purposes other than school discipline do not have to be made available to the parents or student.

A student over 18 and parents of minor students may inspect the student's records and request a correction if the

records are inaccurate, misleading, or otherwise in violation of the student's privacy or other rights. If the District refuses to amend the records, the requester has the right to a hearing. If the records are not amended as a result of the hearing, the requester has 30 school days to exercise the right to place a statement commenting on the information in the student's record. Although improperly recorded grades may be challenged, parents and the student are not allowed to contest a student's grade in a course through this process. Parents or the student have the right to file a complaint with the U.S. Department of Education if they believe the District is not in compliance with the law regarding student records.

Parents may be denied copies of a student's records (1) after the student reaches age 18 and is no longer a dependent for tax purposes; (2) when the student is attending an institution of post-secondary education; (3) if the parent fails to follow proper procedures and pay the copying charge, if any; or (4) when the District is given a copy of a court order terminating the parental rights. If the student qualifies for free or reduced-priced meals and the parents are unable to view records during regular school hours, upon written request of the parent, one copy of the record will be provided at no charge.

Certain information about District students is considered directory information and will be released to anyone who follows procedures for requesting it, unless the parent objects to the release of any or all directory information about the child. This objection must be made in writing to the principal within 10 school days after the issuance of this handbook. Directory information includes: a student's name, address, telephone number, date and place of birth, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, awards received in school, and most recent previous school attended.

Special Education records

Parents of a student with disabilities who has been provided special education services by the District will be notified when any information that specifically identifies the student is no longer needed. If the parent requests destruction of the information and the time established by law for retention has not expired, the records will be destroyed. However, if the retention period established by law has not expired, the material will be deleted from the records, but the records will be maintained until the time has expired.

Parent Notification of Rights under FERPA

The Family Educational Rights and Privacy Act (FERPA) afford parents and students over 18 years of age ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 45 days of the day the school receives a request for access.

Parents or eligible students should submit to the School principal (or appropriate school official) a written request that identifies the record(s) they wish to inspect. The School official will make arrangements for access and notify the parent or eligible student of the time and place the records may be inspected.

2. The right to request an amendment to the student's education records that the parent or eligible student believe are inaccurate.

Parents or eligible students may ask the School to amend a record that they believe is inaccurate. They should write the School principal (or appropriate school official), clearly identify the part of the record they want changed, and specify why it is inaccurate. If the School decides not to amend the record as requested by the parent or eligible student, the School will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified to the right to a hearing.

3. The right to consent to disclosure of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the School as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School board; a person or company with whom the School has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education

record in order to fulfill his or her professional responsibility. Upon request, the School discloses education records without consent to officials of another school district in which a student seeks or intends to enroll.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by Garrison ISD to comply with the requirements of FERPA.

The name and address of the office that administers FERPA are:

Family Compliance Office

U.S. Department of Education

400 Maryland Avenue, SW

Washington, DC 20202-4605

TELEPHONE

The office phones are for school use and are only to be used by the students with the permission of the principal's office for emergencies. Any in-coming calls to students, during the day, will be handled through the office by way of messages. No student will be removed from class to accept a personal phone call except in the event of an emergency.

TEXTBOOKS

State-approved textbooks are provided free of charge for each subject or class. Books must be covered by the student, as directed by the teacher, and treated with care. A student who is issued a damaged book should report that fact to the teacher. Any student failing to return a book issued by the school loses the right to free textbooks until the book is returned or paid for by the parent or guardian. However, a student will be provided textbooks for use at school during the school day.

TRANSFER STUDENTS

Garrison ISD has the authority to accept or reject any transfer requests, provided that such action is without regard to race, religion, color, sex, disability, or national origin. A nonresident student wishing to transfer into the District shall file an application for transfer with the Superintendent by May 1 prior to the school year for which the transfer is requested. Any other requests shall be considered by the Superintendent on a case-by-case basis. See also FDA(Legal/Local)

TRAVEL – SCHOOL SPONSORED

Students who participate in school-sponsored trips shall be required to ride in transportation provided by the school to and from the event. Exception may be made if the student's parent or guardian personally requests that the student be allowed to ride with the parent or presents a written request to the principal or sponsor the day before the scheduled trip that the student is allowed to ride with an adult designated by the parent.

VEHICLES ON CAMPUS

Vehicles parked on school property are under the jurisdiction of the school. The school reserves the right to search any vehicle if reasonable cause exists, with or without the presence of the student. A student has full responsibility for the security of his or her vehicle and must make certain it is locked and that the keys are not given to others. A student will be held responsible for any prohibited objects or substances, such as alcohol, drugs, or weapons, that are found in his or her car and will be subject to disciplinary action by the District, as well as referral for criminal prosecution.

Students must have a valid Texas Driver's License and a school-parking permit to park on campus. For safety reasons, vehicles must remain parked during school hours. Parking and driving privileges could be revoked if students fail to operate vehicle in a safe and orderly manner.

VISITORS

Parents are welcome to visit the District schools. All visitors must report to the principal's office. Proper identification is required to obtain a visitors pass for entry to the campus. With the principal's approval, the student will be summoned to the office. Visits to individual classrooms during instructional time are permitted only with the approval of the principal and the teacher, and such visits are not permitted if the duration or frequency interferes with the delivery of instruction or disrupts the normal school environment. Parents are welcome to eat lunch with their son/daughter, but any other visitors will not be allowed into the cafeteria during lunch break.

Principals are authorized to refuse entry onto school grounds to persons who cannot provide proper identification or do not have legitimate business at the school and to request any unauthorized person or person engaging in unacceptable conduct to leave the school grounds.

PARENT – TEACHER CONFERENCES

The teacher or other designated school official shall conduct a conference with the parent/guardian of a student who has committed one or more infractions of the GISD Code of Student Conduct and/or who has been removed to a disciplinary alternative education program (DAEP).

One or more conferences shall be held during each school year between a teacher and the parent/guardian of a student if the student is not maintaining passing grades or achieving the expected level of performance. If the student presents a disruption to the classroom learning environment, a conference will be held with the parent/guardian. Follow-up conferences will be held as necessary.

The teacher or other designated school official may attempt to conduct these conferences face-to-face, but, where impractical, may conduct the conference by telephone. If these methods fail, the conference may be by letter. The district shall document its attempts to schedule and conduct required conferences.

A teacher or other school official may request a conference with a student's parent/guardian whenever the teacher or official perceives the need for parental cooperation in enforcing the GISD Student Code of Conduct.

At least three conferences will be held with the parent/guardian of a student assigned to the Nacogdoches County Disciplinary Alternative Education Program. The three conferences are:

- Prior to entering the program;
- After placement with a staff member or the Disciplinary Alternative Education Program; and
- Prior to re-entry to the GISD campus.

DISTRICT PERSONNEL TRAINING FOR STUDENT CODE OF CONDUCT

All staff members will receive a copy of the Student Handbook, including the Student Code of Conduct. GENERAL GUIDELINES FOR ASSESSING DISCIPLINE PENALTIES

When imposing discipline, district personnel will adhere to the following general guidelines:

1. Discipline will be administered when necessary to protect students, school employees, property and to maintain essential order and discipline.

Factors to consider will include as follows:

2. Student's age
3. Student's disciplinary history
4. Student's attitude
5. Potential effect of the misconduct on the school environment
6. Self-defense, depending on the circumstances, as a factor in a decision to order suspension, removal to a DAEP or expulsion. Self-defense is defined as using force against another when to the degree a person reasonably believes the force is immediately necessary to protect himself or herself.
7. A disability that substantially impairs the student's capacity to appreciate the wrongfulness of the student's conduct, but only as required by Federal law and regulations related to discipline of students with disabilities.

Examples of minor offenses include, but are not limited to horseplay, tardiness, insubordination, leaving school grounds without permission, profanity, name-calling, being disrespectful, dress code violation and behaving in any way that disrupts the educational process.

The main purpose of Garrison Independent School District's transportation program is to transport students to and from school in the most efficient and safe manner. Students being provided transportation by the district must comply with the Garrison ISD Student Code of Conduct. Any student failing to abide by the Code of Conduct on the bus will be subject to disciplinary action and may be denied transportation services.

While on the bus students will:

1. Ride their assigned bus unless there is special permission through the principal's office.
2. Cooperate with the bus driver.
3. Be courteous to other students.
4. Stay seated at all times. (Bus drivers have the right to assign seats.)

11. Refrain from talking loud and distracting the bus driver.

Referrals regarding bus conduct

1. Any student's behavior which cannot be controlled by the driver will be reported to the building principal by filing a Transportation Referral Notice.
2. The student will be informed that a report has been filed.
3. The campus principal will review the action of the referral(s) and discipline the student in accordance with the Code of Conduct, including but not limited to suspension or riding privileges. The student and the parent/guardian will be informed immediately.
4. A copy of the referral will be provided to the parents.
5. The Superintendent will be informed.

BULLYING

Bullying occurs when a student or group of students directs written or verbal expressions or physical conduct against another student and the behavior results in harm to the student or the student's property, places a student in fear of harm to himself or his property, or is so severe that it creates an intimidating, threatening or abusive educational environment.

Bullying is prohibited by the district and could include hazing, threats, taunting, teasing, assault, demands for money, confinement, destruction of property, theft of valued possessions, name-calling, rumor-spreading, and ostracism. In some cases, bullying can occur through electronic methods, called "cyber bullying." If a student believes that he or she has experienced bullying or has witnessed bullying of another student, it is important for the student or parent to notify a teacher, counselor, principal, or another district employee as soon as possible. The administration will investigate any allegations of bullying and will take appropriate disciplinary action if an investigation indicates that bullying has occurred. Disciplinary or other action may be taken even if the conduct did not rise to the level of bullying.

Any retaliation against a student who reports an incident of bullying is prohibited. It will be up to educators to distinguish between the typical conflicts that take place every day in school and those that rise to the level of bullying or harassment. Further, not every incident will amount to bullying or harassment.

DATING VIOLENCE, DISCRIMINATION, HARASSMENT, AND RETALIATION

The district believes that all students learn best in an environment free from dating violence, discrimination, harassment, and retaliation and that their welfare is best served when they are free from this prohibited conduct while attending school. Students are expected to treat other students and district employees with courtesy and respect, to avoid behaviors known to be offensive; and to stop those behaviors when asked or told to stop. District employees are expected to treat students with courtesy and respect.

The board has established policies and procedures to prohibit and promptly respond to inappropriate and offensive behaviors that are based on a person's race, color, religion, gender, national origin, disability, or any other basis prohibited by law. [See policy FFH]

Dating violence

Dating violence occurs when a person in a current or past dating relationship uses physical, sexual, verbal, or emotional abuse to harm, threaten, intimidate, or control the other person in the relationship. This type of conduct is considered harassment if the conduct is so severe, persistent, or pervasive that it affects the student's ability to participate in or benefit from an educational program or activity; creates an intimidating, threatening, hostile, or offensive educational environment; or substantially interferes with the student's academic performance.

Examples of dating violence against a student may include, but are not limited to, physical or sexual assaults, name-calling, put-downs, threats to hurt the student or the student's family members or members of the student's household, destroying property belonging to the student, threats to commit suicide or homicide if the student ends the relationship, attempts to isolate the student from friends and family, stalking, or encouraging others to engage in these behaviors.

Discrimination

Discrimination is defined as any conduct directed at a student on the basis of race, color, religion, gender, national origin, disability, or any other basis prohibited by law, that negatively affects the student.

Harassment

Harassment, in general terms, is conduct so severe, persistent, or pervasive that it affects the student's ability to participate in or benefit from an educational program or activity; creates an intimidating, threatening, hostile, or offensive educational environment, or substantially interferes with the student's academic performance. A copy of the district's policy is available in the principal's office and in the superintendent's office.

Examples of harassment may include, but are not limited to, offensive or derogatory language directed at a person's religious beliefs or practices, accent, skin color, or need for accommodation; threatening or intimidating conduct; offensive jokes, name-calling, slurs, or rumors; physical aggression or assault; graffiti or printed material

promoting racial, ethnic, or other negative stereotypes; or other kinds of aggressive conduct such as theft or damage to property.

Sexual Harassment

Sexual harassment of a student by an employee or volunteer does not include necessary or permissible physical contact not reasonably construed as sexual in nature. However, romantic and other inappropriate social relationships, as well as all sexual relationships, between students and district employees are prohibited, even if consensual.

Examples of prohibited sexual harassment may include, but not limited to, touching private body parts or coercing physical contact that is sexual in nature; sexual advances; jokes or conversations of a sexual nature; and other sexually motivated conduct, communications, or contact.

Retaliation

Retaliation of a student occurs when a student receives threats from another student or an employee or when an employee imposes an unjustified punishment or unwarranted grade reduction. Retaliation does not include petty slights and annoyances from other students or negative comments from a teacher that are justified by a student's poor academic performance in the classroom.

Retaliation against a person who makes a good faith report of discrimination or harassment, including dating violence, is prohibited. A person who makes a false claim or offers false statements or refuses to cooperate with a district investigation, however, may be subject to appropriate discipline. Retaliation against a person who is participating in an investigation of alleged discrimination or harassment is also prohibited.

Reporting Procedures

Any student who believes that he or she has experienced dating violence, discrimination, harassment, or retaliation should immediately report the problem to a teacher, counselor, principal, or other district employee. The report may be made by the student's parent. See policy FFH(LOCAL) for the appropriate districts officials to who to make a report.

Investigation of Report

To the extent possible, the district will respect the privacy of the student; however, limited disclosures may be necessary to conduct a thorough investigation and to comply with law. Allegations of prohibited conduct, which includes dating violence, discrimination, harassment, and retaliation, will be promptly investigated. The district will notify the parents of any student alleged to have experienced prohibited conduct by an adult associated with the district. In the event prohibited conduct involves another student, the district will notify the parents of the student alleged to have experienced the prohibited conduct when the allegations, if proven, would constitute a violation as defined by policy. If the district's investigation indicates that prohibited conduct occurred, appropriate disciplinary or corrective action will be taken to address the conduct. The district may take disciplinary action if the conduct that is the subject of the complaint was not unlawful. A student or parent who is dissatisfied with the outcome of the investigation may appeal in accordance with policy FNG (LOCAL).

SEXUAL HARASSMENT/SEXUAL ABUSE OF STUDENTS

Every student has the right to attend district schools and school-related activities free from all forms of discrimination on the basis of sex, including sexual harassment. The district encourages parental and student support in its efforts to address and prevent sexual harassment and sexual abuse in the public schools [FNC] (LEGAL)

Definitions of Sexual Harassment

Sexual harassment of a student by an employee includes any welcome or unwelcome sexual advances, request for sexual favors, and other verbal (oral or written), physical, or visual conduct of a sexual nature. It also includes such activities as engaging in sexually oriented conversations for purposes of personal sexual gratification, telephoning a student at home or elsewhere to solicit inappropriate social relationships, physical contact that would be reasonably construed as sexual in nature, and enticing or threatening a student to engage in sexual behavior in exchange for grades or other school-related benefit.

Sexual harassment of a student by another student includes unwanted and unwelcome verbal or physical conduct of a sexual nature, whether by word, gesture, or any other sexual conduct, including request for sexual favors.

Title IX (Federal Law)

Sexual harassment of students may constitute discrimination on the basis of sex and is prohibited by Title IX (the federal law prohibiting gender-based discrimination by schools that receive federal funds).

Parent Notification

The district will notify parents of students involved in sexual harassment by students when the allegations are not minor or of any incident regarding sexual harassment or sexual abuse by an employee. Notification may be by telephone, letter, or personal conference.

The Title IX coordinator for the district is the Superintendent who may be contacted at 459 U.S. Hwy 59, Garrison, Texas 75946 or (936)347-7000. Write and record the date and circumstance of the interview. POLICY DAA (LEGAL), DGBA (LEGAL), DAA, DH, DHC (LEGAL)

POSSESSION OF CELL PHONE

A student cannot have a cell phone in use (on) during the instructional day including all state assessments. The use of mobile telephones in locker rooms or restroom areas at any time while at school or at a school-related or school-sponsored events is strictly prohibited. Students who violate this policy will have their device taken to the Principal's office and held for two full calendar days or pay a fee of \$15.00 for the return of the phone. Second offense will result in the device being taken up for 10 full calendar days or pay a fee of \$15.00 for the return of the phone. If the fee is paid, the phone will be given back at the end of the school day that the fee was paid. Further offenses will result in parent notification and the device being held for 14 calendar days. [FNCE (LOCAL)] The district will not be responsible for damaged, lost, or stolen telecommunications devices.

Using any device that permits recording the voice or image of another to take, disseminate, transfer, or share audio, images, video, or photographs that reveal private parts of the body that are ordinarily covered by clothing (aka sexting) is prohibited. All electronic equipment is subject to search in the event school administrators believe reasonable suspicion exists to support the search.

INAPPROPRIATE USE OF TECHNOLOGY

Students are prohibited from sending or posting electronic messages that are abusive, obscene, sexually oriented, threatening, harassing, damaging to another's reputation, or illegal. This prohibition applies to conduct off school property if it results in a substantial disruption to the educational environment. Any person taking, disseminating, transferring, or sharing obscene, sexually oriented, lewd, or otherwise illegal images or other content will be disciplined according to the Student Code of Conduct and may, in certain circumstances, be reported to law enforcement.

Requesting Limited or No Contact with a Student through Electronic Media

Teachers and other approved employees are permitted by the district to communicate with students through the use of electronic media within the scope of the individual's professional responsibilities. An employee may contact a student individually through electronic media to communicate about items such as homework or upcoming tests. If you prefer that your child not receive any one-to-one electronic communications from a district employee, please submit a written request to the campus principal stating this preference.

INTERNET SAFETY POLICY

It is the policy of Garrison ISD to: (a) prevent user access over its computer network to, or transmission of inappropriate materials via Internet, electronic mail, or other forms of direct electronic communications; (b) prevent unauthorized access and other unlawful online activity; (c) prevent unauthorized online disclosure, use, or dissemination of personal identification information of minors; and (d) comply with the Children's Internet Protection Act [Pub L. No. 106-554 and 47 USC 254(b)]

ACCESS TO INAPPROPRIATE MATERIAL

To the extent practical, technology protection measures (or "Internet filters") shall be used to block or filter Internet, or other forms of electronic communications, access to inappropriate information. Specifically, as required by the Children's Internet Protection Act, blocking shall be applied to visual depictions of material

deemed obscene or child pornography, or to any material deemed harmful to minors. Subject to staff supervision, technology protection measures may be disabled or, in the case of minors, minimized only for bona fide research or other lawful purposes.

LASER POINTERS

Students are not permitted to possess or use laser pointers while on school property, while using District transportation, or while attending school-sponsored or school-related activities, whether on or off school property. Laser pointers will be confiscated and students will be disciplined according to the Student Code of Conduct.

FRATERNITIES, SORORITIES, SECRET SOCIETIES AND GANGS

Students shall not become members or promise to become members of any organization wholly or in part of students of public schools below the rank of college while seeking to perpetuate itself by taking in additional members from the students enrolled in such school on the basis of the decision of its membership, rather than upon the free choice of any student in the school, who is qualified under the rules of the school, to fill the special aims of the organization. A person commits an offense if the person:

1. Is a member of, pledges to become a member of, joins, or solicits another person to join or pledge to become a member of a public school fraternity, sorority, secret society, or gang; or
2. Is not enrolled in a public school and solicits another person to attend a meeting of a public school fraternity, sorority, secret society, or gang or meeting at which membership in one of those groups is encouraged.

A board of trustees or an educator shall recommend placing in a disciplinary alternative education program any student who violates the above rules. (TEC Section 37.121)

DISRUPTION OF CLASSES

For purposes of this rule "school property" includes the public school campus or school grounds upon which any public school is located, and any grounds or buildings used by district schools for assembly or other school related activities, and "public property" includes any street, highway, alley, public park, or sidewalk.

No student will be permitted, on school property, or on public property within 500 feet of school property to willfully disrupt, alone or in concert with others, the conduct of classes or other school policies. Disruption of the education activities of a school includes:

1. Emissions by any means of noise of an intensity that prevents or hinders classroom instruction.
2. Enticement or attempted enticement of students away from classes or other school activities that students are required to attend.
3. Prevention or attempted prevention of students from attending classes or other school activities that students are required to attend.
4. Entrance into a classroom without consent of either the principal or teacher and either through acts of misconduct and/or use of loud or profane language causing disruption of class activities. [POLICY FNCI AND GKA]

STUDENTS WITH HANDICAPS UNDER IDEA

The placement of a student with a disability, who receives special education services may be made only by a duly constituted admission, review, and dismissal committee, henceforth referred to as the ARD Committee. A student with a disability who receives special education services may not be placed in disciplinary alternative education programs solely for educational purposes if the student does not also meet the criteria for alternative placement. [TEC Subchapter A, Sections 37.006(a) and 37.007(a)]

School personnel may assign a student with a disability to an alternative educational setting, or suspension, for not more than 10 school days and to an interim alternative educational setting for not more than 45 days if the student carries a weapon to school or to a school related activity or if the student possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school or a school related activity.

A student with a handicap being served in special education may be expelled for engaging in conduct that would warrant such an action for a student without handicaps only if the ARD committee determines the misconduct is not a manifestation of the handicapping condition or inappropriate placement. [TEC Subchapter A, Section 37.004] The ARD Committee shall determine if the manifestation is a result of the handicapping condition or inappropriate placement prior to the student's expulsion.

In determining whether a student's disruptive behavior was related to the student's handicapping condition, the ARD Committee shall base the decision on currently effective evaluation and assessment data and on review of the current IEP documentation; rather than on established eligibility or previous committee decisions. The ARD Committee shall consider whether the student's behavior indicates the need for new assessment or evaluation data. Unless the parents agree otherwise, the student may be returned to his or her current placement after ten days while additional assessments are being conducted.

The ARD Committee shall determine the instructional and related services to be provided during the time of expulsion. The student's IEP shall include goals and objectives designed to assist in returning the student to school and preventing significant regression.

If the ARD Committee determines that the student's disruptive behavior is related to the handicapping condition or inappropriate placement, the student shall not be expelled. If the disruptive behavior was related to the handicapping condition, it shall either rewrite the IEP to address the student's behavioral and educational needs or, when appropriate, consider the extension of an emergency removal.

STUDENTS HANDICAPPED UNDER SECTION 504

A student handicapped under Section 504 shall not be expelled unless the district first determines that the misbehavior is not a manifestation of the student's handicap. The determination may be made by the same group of people who make placement decisions. The group must have available to it evaluation data that is recent enough to afford an understanding of the student's current behavior. At a minimum, the group shall include persons knowledgeable about the student and the meaning of the evaluation data. [Policy FB and FB (LOCAL)]

IN SCHOOL SUSPENSION

An on campus In School Suspension (ISS) is used for persistent and serious offenses during the school year. This is suspension to a setting on the school campus. The rooms are designed to allow students to remain on the campus in a designated area, with a teacher or aide overseeing their work. The term of the suspension for this program will be from one day to six weeks. Assignment to ISS will be made by the building principal in response to the following offenses and infractions: fighting, insubordination, tobacco use, dishonesty, truancy, vandalism, theft, obscenities, skipping after school detention, decisions and consequences and other persistent offenses.

Once assigned to ISS, the student must earn his/her release by successfully completing all assignments and maintaining an excellent behavior record. The ISS teacher may recommend for a student to be assigned additional days for failure to complete assignments and/or failure to follow ISS rules. Students can be assigned to ISS during regular school hours and/or on Saturday.

POLICE QUESTIONING OF A STUDENT

When law enforcement officers or other lawful authorities wish to question or interview a student at school:

1. The principal will verify and record the identity of the officer or other authority and ask for an explanation of the need to question or interview the student.
2. The principal ordinarily will make reasonable efforts to notify parents unless the interviewer raises what the principal considers to be a valid objection.
3. The principal ordinarily will be present unless the interviewer raises what the principal considers to be a valid objection.
4. If the event is part of a child abuse investigation, the principal will cooperate fully regarding the conditions of the interview.

STUDENTS TAKEN INTO CUSTODY

State law requires the District to permit a student to be taken into legal custody:

1. To comply with an order of the juvenile court.
2. To comply with the laws of arrest.
3. By a law enforcement officer if there is probable cause to believe the student has engaged in delinquent conduct or conduct in need of supervision.
4. By a probation officer if there is probable cause to believe the student has violated a condition of probation imposed by the juvenile court.
5. To comply with a properly issued directive to take a student into custody.

6. By an authorized representative of Child Protective Services, Texas Department of Protective and Regulatory Services, a law enforcement officer, or a juvenile probation officer, without a court order, under the conditions set out in the Family Code relating to the student's physical health or safety.

Before a student is delivered to a law enforcement officer or other legally authorized person, the principal will verify the officer's identity and, to the best of his ability, will verify the official's authority to take custody of the student.

The principal will immediately notify the Superintendent and will ordinarily attempt to notify the parent unless the officer or other authorized person raise what the principal considers to be valid objection to notifying the parents. Because the principal does not have the authority to prevent or delay a custody action, notification will most likely be after the fact.

PHYSICAL RESTRAINT

Any district employee may, within the scope of the employee's duties, use and apply physical restraint to a student that the employee believes is necessary in order to:

1. Protect a person, including the person using physical restraint, from physical injury.
2. Obtain possession of a weapon or other dangerous object.
3. Protect property from serious damage.
4. Remove from a specific location a student refusing a lawful command of a school employee, including from a classroom or other school property, in order to restore order or impose disciplinary measures.
5. Restrain an irrational student. POLICY FO (LOCAL)

CORPORAL PUNISHMENT

Corporal punishment is permitted in order to preserve an effective educational environment, free from disruption. Corporal punishment shall be reasonable and moderate and may not be administered maliciously or for the purpose of revenge. Such factors as the size, age, and physical, mental, and emotional condition of the student; the type of instrument to be used; the amount of force to be used; and the part of the body to be struck shall be considered before administering any corporal punishment. A disciplinary record shall be maintained and shall contain the name of the student, the type of misconduct, and previous disciplinary actions, the type of corporal punishment administered, the name of the person administering the punishment, the names of witnesses present, and the date and time of punishment. Disciplinary records shall be made available to parents or the student, whichever is appropriate.

Corporal punishment shall be limited to spanking or paddling and shall be administered only in accordance with the following guidelines:

1. The student will be told of the reason corporal punishment is being administered.
2. Corporal punishment may be administered by the school principal, assistant principal, or a teacher.
3. The instrument to be used in administering corporal punishment shall be approved by the principal or a designee.
4. When corporal punishment is administered, it shall be done in the presence of one other district professional employee and shall take place in a designated place out of view of other students.

AFTER SCHOOL DETENTION (ASD)

Assignments to After School Detention will be made by the classroom teacher or the building principal. Students can be assigned to ASD for minor offenses and infractions. An assignment to ASD may range from one to two afternoon sessions. Assignment for one offense constitutes one ASD assignment. A student may serve a maximum of five assignments per nine-week period. After the fifth assignment, the offense becomes persistent, and the principal will assign the student to the Special Assignment Class or use another management technique.

For minor infractions of the code of conduct or other policies and regulations, teachers may detain students after school hours. Before assigning students to detention, the teacher shall inform the student of the conduct that allegedly constitutes the violation, and the student shall be given an opportunity to explain his version of the incident.

When detention is used, notice shall be given to the student's parent or legal guardian to inform the parent of the reason for the detention and allow arrangements for the necessary transportation of the student. The detention will be assigned on the first available date, however students will be allowed 24 hours notice. **The student's parent**

or guardian, if the student is a minor, shall be required to provide transportation when the student has been assigned to detention. [POLICY FOC (LOCAL)]

CREDIT DURING DISCIPLINARY PROCESS

Students shall receive full credit for assignments completed in the In School Suspension.

A student who has been removed from his or her regular classes for any reason other than expulsion will not receive an unexcused absence and will be expected to complete any course work assigned within a time designated by the teacher.

Nacogdoches County Disciplinary Alternative Education Program

Students who have been assigned to the Disciplinary Alternative Education Program will only receive credit for the passing of course work in English Language Arts, Mathematics, Science, and History.

Expelled Students

A student who has been expelled will be allowed to remain current on all course work pending an appeal to the board or the board's designee's decision to expel the student. However, if the appeal is denied, the student will not receive credit for work missed during the period of expulsion.

NACOGDOCHES COUNTY JUVENILE AUTHORITIES

Nacogdoches County juvenile authorities will be informed by the appropriate administrator if a student is sent to the Nacogdoches County DAEP School. The Juvenile authorities will work directly with the DAEP School while students are assigned there. When a student is suspended or expelled from the DAEP School, the authorities will be notified as soon as possible but no later than 24 hours. (TEC 37.013)

LOCAL LAW ENFORCEMENT

The designated administrator will notify the local police department or county sheriff's office when a student has been expelled. (See TEC Section 37.015)

COURT INVOLVEMENT

No later than the second business day after the date a hearing is held under TEC Section 37.009, the board of trustees or the board's designee shall deliver a copy of the order placing a student in an alternative education program under TEC Section 37.006 or expelling a student under Section 52.04 of Family Code to the authorized officer of the juvenile court in the county in which the student resides (TEC Section 37.010)

ASBESTOS NOTIFICATION LETTER

TO: Parents, Teachers, and School Support Personnel

FROM: Arnie Kelley, Interim Superintendent

SUBJECT: Notification of Asbestos-Related Activities

As required by the federal government, this will serve as notification to the above constituency, of current and pending asbestos-related activities for Garrison ISD.

In the spring of 2014, an EPA accredited inspector/management planner, performed the mandatory three-year re-inspection of asbestos-containing materials for our district. This inspection is used by districts as a time to check condition of asbestos materials, update records, and review current regulations. Each of these projects has been completed by our district, and we will not be required to complete another three-year re-inspection until 2017.

Our independent inspectors have located and identified asbestos in your schools, and they have made recommendations for proper control should potential hazards exist. This inspection process is followed by the management planning process, which enables our district to determine the hazard if one exists, and take corrective actions to insure the health and safety of our students and faculty.

As required by law, our designated person will complete a surveillance of any asbestos-containing areas every six months to ensure any potential hazard is kept to a minimum.

A copy of the management plan, as well as the re-inspection documentation will be kept in the office of the superintendent (Fire Room), and may be examined by you upon request.

Should you need additional information, you may call the Garrison ISD Asbestos Designated Person, David Comer, at (936)347-7097.
