

Mobile App

txConnect is also available as a mobile application that can be used to access student data from most mobile devices. The application displays data that is available from the txConnect Web site; however, the pages were reformatted for use in a smart phone environment. The online registration component of txConnect is also available from the mobile application.

An eight-minute video tutorial on the txConnect mobile app is available here:

http://youtu.be/HnUB_qThP6E

This Overview and Orientation video provides step-by-step instructions for using the txConnect mobile app, including getting started, logging in, navigation, adding students, viewing student data, setting alerts, and reading alert messages.
